365 INTERLOCK MONITORING

365 Interlock Monitoring was founded by a group of individuals with experience in Law, Bail Bonds, Medical, and Private Investigation Industries. They came together to add their knowledge and expertise to the Judicial industry. Together they have created new technology to monitor and track DWI/DUI offenders to ensure compliance with the Rules and Regulations of the State. 365 Interlock Monitoring is an affordable and reliable [breathalyzer](#) monitoring company, that is changing the way our Judicial System and court-ordered clients view [breathalyzer testing](#). Our devices are portable and discreet. Bluetooth technology connects our Police Grade device to the clients phone using our [Patented application](#). Our goal as a company is to provide accurate and easy testing for our clients as well as detailed ["real time" reporting](#) to the proper judicial authorities. Real time reporting consists of any inconsistencies, violations or tamperings that need to be reported within seconds of the incident. We are here to assist every probation officer and client succeed with our 24 hour assistance with any questions or [technical support](#).

E-Cell WATCH

Back in 2014 when B.I.T. was starting up, we took into account of all the people we dealt with while in the Bail Bond and Private Security industry. As we were developing B.I.T. we vowed not to take advantage of our communities. We knew that if we made monitoring easy and affordable, that more people would benefit by being able to complete their program and be able to go about their lives.

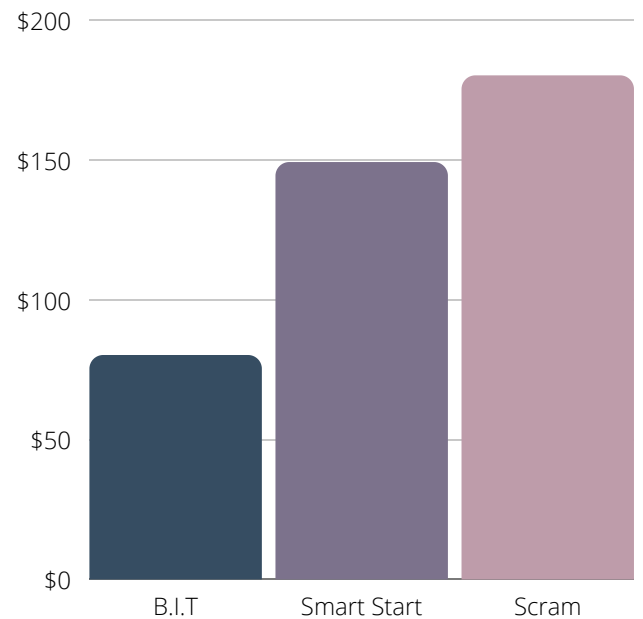

We also understood that by making it difficult to tamper with our device and deliver on point and accurate reports, we would also be giving the Probation Officer more time to concentrate on what was important, "The Client".

In the future as B.I.T. and 365 Interlock Monitoring continue to grow, we will be offering incentives to our clients. We are setting up programs that offer our clients lease discounts on their device, Uber credits, Prepaid cards, and other forms of assistance. We believe in helping our clients achieve their goals and believe this is one way of doing so. We do care about our clients success. One more successful client means one more unnecessary lost life in a car accident or intoxicated assault.

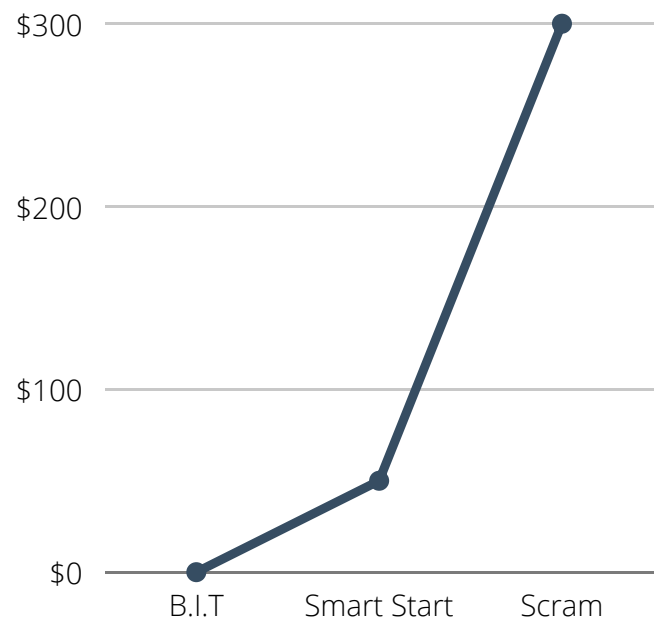

Thank you for your time and consideration. If you have any questions or concerns, please do not hesitate in giving us a call. We are available 24/7. My cell # is (915)487-8596. If the call goes to voicemail, please send me a text and I will return your call immediately.

More Effective & Complete Electronic Monitoring Without Ankle Bracelets!

Advanced Electronic Monitoring

ABOUT THE NEW E-CELL WATCH

The world's first wrist worn bracelet (HA-Bit) for electronic monitoring. The tamper proof, locking bracelet connects via bluetooth to the House Arrest App and is available on both Android and iPhone. We recommend the HA-Bit for noncompliant offender check-ins as we are geared for low-risk offenders.

E-Cell is the innovator of more effective electronic monitoring – without bulky ankle bracelets.
